Q. One of previous CC was building a Queue Emulator in FE module. Host the queue emulator on the Heroku.

# Queue Emulator

The Number You Want Add To The Queue

Enter The Number

Add    Remove

111,434,121,4,90

**Note**

- You may need to create separate routes for serving you browser javascript and CSS. Otherwise you can use embedded styles and put you browser javascript code in the script tag.

**Marking Scheme**

[Hosted on Heroku: 5, Correct Code Execution: 5, Correct Approach: 3, Code Readability: 2 ]
